 SAI GLOBAL

Medium to Heavy Range

The DMS range of breakers are manufactured as a sole piece made from a fully forged steel rod, sporting the huge advantage of having eliminated the tie rods. Socomec are the only company worldwide to produce breakers in this way, and the DMS 4000 is the largest Monoblock breaker available on the market. Two vulcanized polyurethane shells isolate the Monoblock from the metal case, reducing noise level, vibrations and making them much simpler and economical to service.

All parts are surface treated for longevity; we are certain of the quality and durability that together with Socomec we offer a **10 year warranty** on every Monoblock.

The inbuilt energy recovery system reduces RPM, lessening stress on the pump and engine which equals less fuel consumption.

Contatore provide excellent after sale service, working manuals, and eco-friendly grease.

Model		DMS 1350TS	DMS 1800TS	DMS 2400TS	DMS 3000TS	DMS 4000TS	MDO 6000TS
Energy	joule	2700	4700	6400	8400	10000	12000
Frequency	c/min	550/780	480/650	460/630	380/500	360/480	340/460
Oil flow	l/min	150	190	220	250	320	400
Pressure	bar	140	140	140	150	160	160
Weight	kg	1350	1800	2400	3000	4000	6000
Tool diameter	mm	120	135	152	165	180	198
Height	mm	2210	2346	2569	2861	3023	3352
Min. width	mm	246	390	430	478	560	605
Backpressure	bar	10	10	10	10	10	10
Excavator Weight*	t	16-20	22-28	25-33	31-45	45-65	60-90

*Ideal weight - possibilities lie outside this range

Key Features

Braking System

Hydraulic braking system to eliminate blank strokes

Energy Recovery

Stroke variation and energy recovery system for maximum power

Parts Protection

Automatic greasing unit & special dust proof protection

Underwater Use

Can be used for underwater and tunneling applications

Innovative Design

Revolutionary monoblock design without tie rods

Aftersale Support

Specialised service facilities, mobile service unit and aftersale support

Warranty

10 year warranty on the Monoblock and 1 year warranty on brand new breakers

Soundproofing

The innovative soundproofing system reduces noise by approximately 50%
