

Fork Slippers

Delivering
Engineering
Excellence

Quality
ISO 9001

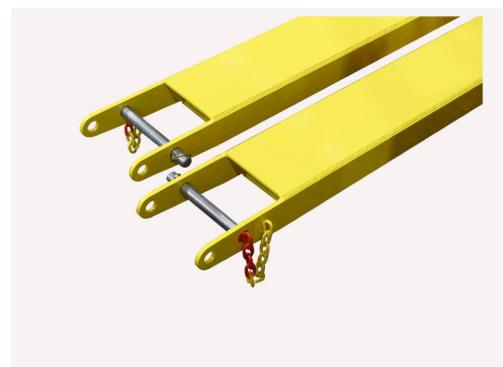

Contatore Engineering manufactures a superior Fork Slipper.

Custom made to suit your requirements, also advising on the maximum length available depending on the parent fork arm the slipper is to be used.

Contatore Engineering Fork Slippers are fabricated using steel plate.

- Designed to AS2359.15-2005, ISO13284:2003 & manufactured to AS3990-1993
- All Contatore Engineering Slippers are fully NDT tested via independent Nata approved technicians.
- Fork Slippers (Extensions) increase the usable length of your forks for increased versatility.
- Placard with relevant information.
